

Summer Course

Week 1 Assignment **(Due: 5:00 pm July 28,2017)**

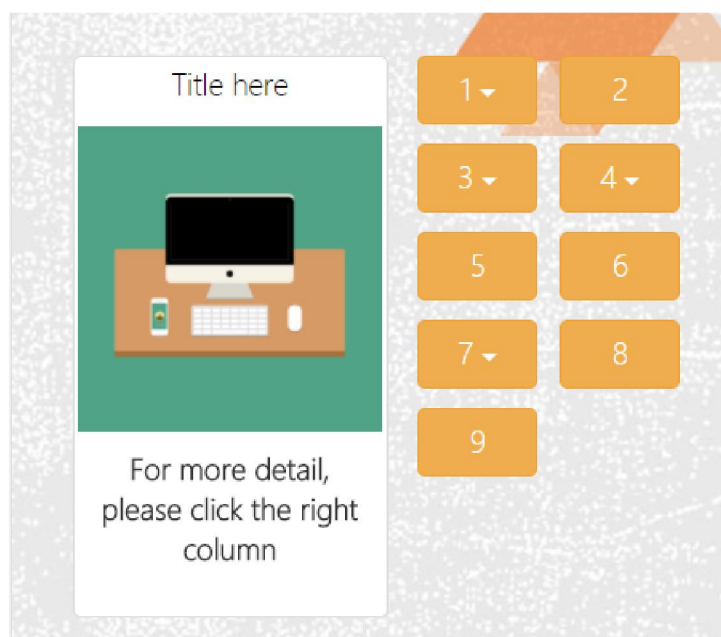

Design a static webpage **similar to** the following one:

Requirement:

1. This webpage should be designed using Grid System [栅格系统]
2. You should consider the webpage responsiveness[网页自适应], in other words, your webpage can be viewed in any size of the screen without deforming.(Assume the smallest screen is iPhone5)

Example: Webpage viewed in iphone6

3.You can choose to replace the image in the example with any image.

4.The button with triangle icon in the right side means that you can extend this button.

Example:
