Summer Course

Week 1 Assignment for Basic HTML&CSS **(Due: 5:00 pm July 28,2017)**

Draw three blocks similar to the following one in a webpage

Requirement & Hint:

1.The color of the block can be any color you like.

2.The width of the border should be larger than 4px, and its color should be black.

3.Opacity is required. In the pictures above, the opacity of the blocks is 0.3.

4.The space between the blocks can be created by adjusting the margin's width.

5.You should use the concept of "class" in CSS to set the color of the blocks.

6.You can change the size of HTML tag <li> to create a block.
